

Power Partners 2009 Programme

Aims

Power Partners is an exciting Executive Coaching and peer building programme from Aurora Training and is strictly limited to an elite group of partners per annum. This intensive programme is ideal for business owners, managers or anyone who would like to massively accelerate their own personal performance, refining their vision, setting stretch goals and achieving great results in a short period of time. It works by combining strategic executive coaching from Nicola herself, with a powerful peer building programme.

We know that we like people who are like us, therefore our peers tend to be a reflection of ourselves. Add in the fact that peer pressure can either lift you or hinder you; a powerful peer group can impact your ultimate level of success. This programme will stimulate, challenge and support the partners through the right combination of 1-2-1 interaction, tele-coaching, peer support and ongoing knowledge building. Places are strictly limited to 10 places per year as it is the only 1-2-1 coaching programme Nicola personally undertakes. The flexibility of the programme allows you design a coaching that fits around your business needs, your budget and your available time.

So if you want your results to reflect your true potential and you're ready to accelerate your performance to the next level then Power Partners is the right programme for you.

Incorporated into the annual subscription are the following services.

Quarterly Momentum Meetings	½ day 1-2-1 coaching session with Nicola.	£750.00 per session

What people are saying

“I joined the Power Partners programme after going on the Leadership course and it’s one of the best decisions I’ve made in the past year.

After a tough year managing my business growth, I had encountered a number of situations that had challenged me both personally and professionally and I felt I needed additional support and a different perspective; Power Partners has done just that.

The 1-2-1 coaching sessions with Nicola have widened my thinking, given me clear focus and direction, made me accountable for my actions, but most importantly re-invigorated me.

This added to the additional support services as well as the opportunity to meet other people at my peer level has added the much needed momentum to my business that I was looking for.

This programme is a must for anyone in a leadership role”.
